BLACK EARTH

humiZEN™ Keal

CONTAINS BENEFICIAL SUBSTANCE

Humic Acids derived from humalite	0.3%

PRODUCT INFORMATION

HumiZen™ Keal is a highly concentrated liquid acid derived from humalite, a highly concentrated source of humic acid found exclusively in Alberta, Canada. Applications made according to directions for use may improve soil structure and aid in nutrient uptake and availability. Humic substances enhance soil chemical properties, including cation exchange capacity and micronutrient chelation, which may improve the availability and root uptake of essential micronutrients.

DIRECTIONS FOR USE

Read label in its entirety. Shake or agitate container prior to use. HumiZEN™Keal is a powerful chelating agent for enhancement of foliar nutrient applications. It is compatible with virtually any liquid crop input and aids in uptake and penetration through root and leaf membranes. Always conduct a jar test to confirm compatibility prior to blending with any other product. Apply only as directed.

Refer to Technical Data Sheet (TDS) for specific blending/mixing capabilities for this product.
