Section 4. First aid measures

Description of first aid measures

- General** In all cases of doubt, or when symptoms persist, seek medical attention. Never give anything by mouth to an unconscious person.
- Inhalation** Remove to fresh air, keep patient warm and at rest. If breathing is irregular or stopped, give artificial respiration. If unconscious, place in the recovery position and obtain immediate medical attention. Give nothing by mouth.
- Eyes** Irrigate copiously with clean water for at least 15 minutes, holding the eyelids apart and seek medical attention.
- Skin** Remove contaminated clothing. Wash skin thoroughly with soap and water or use a recognized skin cleanser.
- Ingestion** Dilute the stomach contents by giving large amounts of water or milk.
- Most important symptoms and effects, both acute and delayed**
- Overview** Swallowing: May cause nausea, headache.
- Skin Absorption: No evidence of adverse effects from available information.
- Inhalation: May cause nasal stuffiness, cough, sore throat. Avoid breathing vapors and mist.
- Skin contact: Staining may occur - wash with soap and water. No harmful effects expected.
- Eye contact: No harmful effects expected from vapor. If splashed in eyes, rinse immediately with water for 15 minutes.
